

# SANZEN Legal AI: User Guide

---

**Author:** Manus AI **Date:** December 18, 2025

## 1. Introduction

---

This document provides a comprehensive guide to using the SANZEN Legal AI platform. It covers all the key features and workflows, with step-by-step instructions on how to use each module. This guide is intended for end-users of the platform, such as legal professionals and paralegals.

## 2. Getting Started

---

### 2.1. Logging In

To access the platform, you need to log in with your credentials. The development login details are:

- **URL:** <https://paris-group-legal-ai.onrender.com/local-login>
- **Username:** SanzenAdmin
- **Password:** Admin

### 2.2. Dashboard

After logging in, you will be taken to the dashboard, which provides an overview of your recent activity and quick access to the main features of the platform.

## 3. Features

---

This section provides detailed instructions on how to use each of the key features of the platform.

### **3.1. New Consultation**

To start a new legal consultation:

1. Click on **New Consultation** in the navigation menu.
2. Fill in the **Title**, **Category**, and **Language** for the consultation.
3. Click **Create Consultation**.
4. You will be redirected to the consultation page, where you can start chatting with the AI assistant.

### **3.2. Document Generator**

To generate a legal document:

1. Click on **Document Generator** in the navigation menu.
2. Select the type of document you want to generate (Demand Letter, Eviction Notice, NOC, or LOI).
3. Fill in the required information in the form.
4. Click **Generate** to create the document as a PDF.

### **3.3. Legal Translator**

To translate a legal document:

1. Click on **Legal Translator** in the navigation menu.
2. Select the **Source Language** and **Target Language**.
3. Enter the text you want to translate in the input box.
4. Click **Translate** to get the professional legal translation.

### **3.4. Knowledge Base**

The Knowledge Base is a repository of legal documents and articles. You can browse the knowledge base to find relevant information for your cases.

### **3.5. PDF Upload**

The PDF Upload feature allows you to upload and process PDF documents. This feature is still under development.

### **3.6. LLM Settings**

The LLM Settings page allows you to configure the LLM provider for the platform. You can choose between Google Gemini and the Manus Built-in LLM.
